

Meaning of EPS in distribution box

Overview

The EPS Box, in accordance with the provisions of the standard (cf. 3), allows you to use the inverter for emergency services in the absence of the grid, allowing the loads to be powered both from the public network and the power production installation . The SolaX X1 and X3 EPS Boxes are designed for easy integration with single-phase and three-phase inverters. Their compact build and integrated dual contactors simplify wiring and support flexible installation in any setup. With intelligent switching between on-grid and off-grid modes, the EPS Box. EPS input Communication interface Check the delivery for completeness. On the packing list there is a board marking paper made of cardboard to indicate where the X3-EPS Parallel Box should be mounted on the wall. This. EPS is a Malaysian brand purpose-built for electrical protection devices and distribution boards, with a product range that meets both SIRIM certification and JKR approval requirements for residential, commercial and government projects in Malaysia. See Kwong Electric stocks the full EPS protection.
