

Modular energy storage cabinet 400V for monitoring purposes

Overview

This 400V battery pack energy storage cabinet integrates high-performance LiFePO₄ battery cells, intelligent battery management system (BMS), and modular cabinet structure for safe, stable, and long-term operation. The 418kWh BESS Cabinet is a high-capacity all-in-one (AIO) energy storage cabinet built for commercial and industrial (C&I) users who need fast deployment, scalable expansion, and clean integration with modern PV and low-voltage distribution systems. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. Industrial-grade modular battery energy storage system featuring 1182kWh capacity and 1000KW power rating. Certified to IEC, UN, and UL standards with wide -30°C to 55°C operating range and IP55 protection. With its impressive power rating, certifications, communication interface, and operating temperature.
