

Mozambique Telecom-Grade Router 400G

Overview

The AGR400 is a high-performance 100GbE aggregation router that consists of fixed 2 x 400G QSFP-DD (21.5 W), 18 x 100G QSFP28 (5 W), and 4 x 25G SFP28 (2 W) network interfaces in a 2RU compact design that can be. • 400ZR is an interoperable, cost-effective, 400Gb/s interface based on single-carrier coherent DP-16QAM modulation, low power DSP supporting absolute (Non-Differential) phase encoding/decoding, and a Concatenated FEC (C-FEC) with a post-FEC error floor <1. This white paper takes a closer look at these technology advances, and their impact and applications. For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and. The Cisco® ASR 9000 Series 5th Generation 400 Gigabit Ethernet Enhanced Multi-Rate Line Card delivers industry-leading high density, with line-rate 1, 10, 25, 40, and 100 Gigabit Ethernet (GE) ports, to any slot of a Cisco ASR 9000 Series Aggregation Services Router. This multi-rate line card is. BlazingFast Photonics delivers high-speed optical transceivers, silicon photonics, co-packaged optics, OSFP 1.
