

Municipal authorities cut fiber optic cable

Overview

The Nairobi City County and Kenya Power have reached a truce to amicably resolve recent squables which escalated into retaliatory acts that saw the destruction of fibre optic cables, affecting Internet services within parts of Nairobi. The resolution came after a meeting convened by the Head of. A 29-year-old man has been arrested in London following attacks by a group of climate activists who sabotaged fiber optic cables in several cities across the UK. The activist group, known as Shut the System, claimed responsibility for the damage, justifying it as an act of protest against insurers. On orders from the ruling Taliban, Afghanistan's telecommunications authorities have capped fiber optic internet access. It is unclear how long telephone and cellular networks will be affected, or to what degree.
