

New Price Quote for Fire Protection Distribution Boxes

Article Overview

Fire protection distribution boxes are available from \$50 to \$300+ depending on size, material, and features, with options for waterproof, fire-rated, and modular designs.

Overview of Pricing

Fire protection distribution boxes vary in price based on material, size, and certification:

- Outdoor metal fire protection boxes with waterproof and modular features typically range from \$150 to \$300 per unit, depending on the number of circuits and additional control panel integration .
- Plastic or ABS IP65 waterproof distribution boxes suitable for 12-way DIN rail setups are available for around \$50 to \$100 per unit, offering basic fire protection and weather resistance .
- Customizable fire-rated enclosures conforming to BS standards for extreme heat and hazardous areas may cost \$200+, reflecting their high-performance ceramic terminal blocks and fire survival ratings .

Key Features Affecting Price

- Material and Construction: Metal enclosures provide superior durability and fire resistance, while ABS or plastic boxes are lighter and more cost-effective .
- Waterproofing and IP Rating: IP65 or higher ensures protection against dust and moisture, which is critical for outdoor installations .
