

New rack-mount PDUs for IoT

Overview

Explore intelligent rack-mounted PDUs with remote monitoring, power metering, and outlet control. Perfect for IT setups and data centers to optimize energy efficiency and power management today! With market-leading cybersecurity, global approval and versatility within deployments, the Rack PDU G4 is ideal for data center managers seeking to streamline PDU procurement and management. Industry-leading, high-density 0U mounted PDU that provides 24, 42 or 48 evenly distributed outlets on a 42U. Managing and installing a rack power distribution unit (PDU) has never been easier than with the EL2P PDU. Vertiv™ Geist™ rPDUs offer important insights on how to improve data centre energy efficiency while enabling you to prevent downtime, providing notifications when user-specified. Best-in-class intelligent rack power distribution (PDU) with up to 50% more power, twice as many outlets, and a 4-in-1 combination outlet design for fast, flexible deployment. Maximizing density, speed of deployment, and availability in data center environments. With Raritan PDUs, you can meter at the inlet, which provides a view of power usage and capacity at the cabinet level; at.
