

Optical Cable and Optical Box Code

Overview

The HS Code 90011000 refers to optical fibers, optical fiber bundles, and cables. These products are classified under this code and are different from those falling under HS Code 8544. When installing optical fiber cables, the requirements for wiring methods are located in Art. such elements of glass. The Harmonized System (HS) is an internationally standardized system of names and numbers for classifying traded products. Developed by the World Customs Organization (WCO), it is used by more than 200 countries as a basis for their customs tariffs and for the collection of international trade. Your HS codes determine your compliance, your admissibility, and which supply chain advantages you can capture.
