

Optical Network Maintenance Toolkit Low Loss RoHS

Overview

Includes maintenance tools such as a handheld light source, handheld optical power meter, visual fault locator, and cleaning pen; Provides matching standard test jumpers and adapters according to the specific optical network or optical link tested by the customer; Includes maintenance tools such as a handheld light source, handheld optical power meter, visual fault locator, and cleaning pen; Provides matching standard test jumpers and adapters according to the specific optical network or optical link tested by the customer; Operating temperature: -5~40°C; Storage and transportation temperature: -10~40°C; Product list of optical network maintenance toolbox. Due to our strict quality control system the users. Designed for FTTH installation and network repair, these sets include high-precision fiber strippers, cleavers, and Kevlar shears housed in a rugged, impact-resistant hard case. The ultimate all-in-one solution for fiber optic termination and splicing preparation. fiber optic tool kit, fiber tool. AFL designs test and inspection tools that are easy to use and provide quick results, without complicated training requirements. Using them consistently eliminates the #1 cause of network outages - dirty. The FTTH Assembly Optical Fiber Termination Tool Kit from HOLIGHT is a complete, portable toolkit designed for fast and efficient optical fiber termination in FTTH networks. According to the Fiber Optic.
