

Price of Aluminum Alloy Cable Management Brackets

Article Overview

Aluminum alloy cable management brackets typically range from a few dollars per unit to higher prices for heavy-duty or multi-layer designs, depending on size, capacity, and supplier.

Overview of Pricing

The cost of aluminum alloy cable brackets varies based on dimensions, load capacity, and the number of cable layers. For example, standard fixing brackets for Ethernet or fiber optic cables may cost \$2-\$10 per bracket for small to medium sizes, while larger industrial brackets or multi-layer systems can be higher. Bulk purchases often reduce the per-unit price, especially from manufacturers or wholesale suppliers like Alibaba.

Factors Affecting Price

- **Bracket Size and Cable Capacity:** Small brackets for 4-6 cables are cheaper, while larger brackets supporting 12-24 cables cost more.
- **Material Quality:** High-grade aluminum alloys with superior corrosion resistance or heat dissipation may increase cost.
- **Supplier and Shipping:** Prices vary between distributors like Mouser, McMaster-Carr, and Cobotel, and shipping costs can affect total price.
- **Indoor vs Outdoor Use:** Brackets designed for harsh environments, chemical plants, or marine conditions may be priced higher due to enhanced durability.
