

Price of Standard Residential Distribution Boxes

Overview

New panel box pricing typically ranges from about \$150 to \$1,900 for parts and labor, with most residential projects landing between \$450 and \$1,500 depending on amp rating, gauge of wiring, and labor complexity. Understanding distribution box cost is essential for businesses and property owners planning electrical installations or upgrades. Below are two primary types: The Main Distribution Board serves as the central hub in an electrical system, receiving power from the main. Whether you are a seasoned procurement officer or a first-time project manager, understanding the distribution box market is about more than just a price tag; it is about safety, scalability, and finding that sweet spot between “cheap” and “reliable.” At NUOMAK, we believe that your power. Schneider Electric's 100A SP MCB/RCBO Board, integral to home distribution boards, offers efficient power management in residential settings. Part of the 9 Series, it features a 2 Pole M/S Space, aligning with contemporary distribution needs. Combining MCB and RCBO, the board provides enhanced. Prices might seem steep for advanced units, but they pay dividends in safety and convenience. As 2025 approaches, planning today ensures your infrastructure doesn't become tomorrow's bottleneck. Whether installing a simple sub-panel or overhauling a building network, remember: the true value isn't. The cost of a new panel box depends on the box size, meter/branch requirements, enclosure type, and labor for installation.
