

Price of U-shaped steel cable trays

Article Overview

U-shaped steel cable trays typically range from \$20 to \$100 per meter depending on material, size, and supplier, with bulk and customizable options available.

Pricing Overview

U-shaped steel cable trays, also known as trough cable trays, are widely used in industrial, commercial, and data center applications for efficient cable management . The cost depends on several factors:

- **Material:** Electrogalvanized, hot-dip galvanized, and stainless steel trays vary in price. Stainless steel (304 or 316) is more expensive due to corrosion resistance and durability .
- **Size and Load Capacity:** Wider trays or those designed to support heavier cables cost more. Standard widths range from 50 mm to 600 mm, with larger trays priced higher .
- **Supplier and Brand:** Top brands like RS PRO, Legrand, and Cablofil offer premium pricing, while bulk suppliers on platforms like Alibaba provide cost-effective options for large orders .
- **Customization:** Custom lengths, perforations, or coatings can increase the price but improve installation efficiency and adaptability .

Cost Comparison

- **Wire Mesh/Basket Trays:** Typically the most affordable, often under \$20-\$40 per meter for light-duty applications .
