

Price of galvanized metal cable trays in Africa

Article Overview

Standard galvanized steel cable trays in Africa typically range from USD 18 to 45 per linear meter, with bulk project pricing often 12-20% lower.

Pricing Overview

- West Africa: Standard galvanized steel cable trays are priced between USD 18-45 per linear meter at distributor level, with bulk project quotes often 12-20% lower than catalog prices. Fire-retardant or aluminum variants can cost 30-60% more than standard galvanized trays .
- Kenya: Perforated galvanized cable trays are commonly available in lengths of 2.44 meters (8 feet), with thicknesses ranging from 0.6mm to 3.0mm and widths from 25mm to 100mm. Prices vary depending on size and thickness, with ladder-type trays being widely used for industrial and commercial applications .
- Nigeria: Locally manufactured galvanized trays, such as 300mm x 50mm by 2.5 meters, are designed for strength, stackability, and ease of installation. Pricing is competitive and often tailored for bulk orders .
- South Africa: Premium galvanized trays from suppliers like Baobab Metal Systems offer perforated and solid-bottom options with high load-bearing capacity and corrosion protection, suitable for medium to high-volume power and instrumentation cables . Prices are influenced by tray type, dimensions, and compliance with local standards.
