

Price of popular FC adapter used at Senegal airport

Article Overview

Expect to pay between \$20 and \$50 for a basic travel adapter at Senegal airport, with multi-port or surge-protected models costing more.

Travel adapters compatible with Senegal use types C, D, E, and K sockets, so a universal or multi-country adapter is recommended for international travelers . Airport shops usually stock universal travel adapters, USB charging hubs, and simple plug converters, but the selection may be limited compared to online stores . Pricing details:

- Basic single plug adapters: \$20-\$50
- Multi-port or surge-protected adapters: Often higher than \$50 due to convenience and additional features
- Airport prices are generally marked up compared to online or local retail stores, reflecting convenience and taxes . Tips for travelers:
- Check that your devices are dual voltage (100-240V) to avoid needing a voltage converter .
- Consider buying a universal adapter with USB/USB-C ports to charge multiple devices simultaneously .
- If possible, purchase online before your trip for better value and a wider selection, as airport shops may have limited stock . By planning ahead, you can ensure your devices stay charged without paying excessive airport prices or risking compatibility issues.
