

Professional electrical cable trays

Overview

Cable trays support insulated electrical cables in industrial and commercial settings. There are several types of cable trays, including ladder, perforated, solid bottom, basket, and channel trays. Are you looking for high-quality Cable Trays for improved cable management and organisation?

Look no further than our extensive range, featuring top brands such as our very own RS PRO, Cablofil International, Legrand, and StarTech. com – the reliable choice for safe, organized, and standards-compliant routing of power, data, and control cables. They are typically made of metal, such as steel or aluminum, and are designed to provide a safe and efficient way to route and protect. Heavy duty cable trays and cable ladders are manufactured from pre-galvanized or hot-dipped galvanized sheet metal, designed to meet ideal environmental working conditions for indoor and outdoor use in commercial or industrial environments with high cable density.
