

Purchase Price of Mesh Cable Trays

Article Overview

Wire mesh cable trays typically range from \$0.80 to \$76 per unit depending on material, size, and purchase volume.

Price Ranges

- B2C (retail/home use): Individual trays for home offices or small-scale projects are priced between \$15 and \$34, with some wholesale options as low as \$0.92 per unit, depending on size and material .
- B2B (industrial/commercial): Bulk purchases for large projects can range from \$0.80 to over \$76 per tray, with higher prices reflecting larger, more durable trays made from stainless steel, aluminum, or fireproof FRP .

Factors Affecting Cost

- Material: Steel, aluminum, and fiberglass are common. Stainless steel and hot-dip galvanized steel are more expensive due to durability and corrosion resistance .
- Tray Size and Design: Larger trays or those with covers for outdoor use increase the price. Wire mesh trays are generally lighter and more affordable than ladder or solid-bottom trays .
- Installation Requirements: Trays with snap-on components or pre-fabricated fittings may cost more upfront but reduce labor costs and installation time .
- Project Location: Labor and material costs vary by region, affecting the overall purchase price .

Cost-Saving Considerations
