

Qatar Connector Box 12 Cores

Article Overview

The 12-core FTTH fiber distribution box in Qatar is a versatile unit for indoor and outdoor fiber management, supporting splicing, splitting, and multiple connections.

Product Overview

The 12-core FTTH fiber distribution box is designed for fusion splicing, splitting, and wiring transmission in optical networks. It can terminate, protect, and manage up to 12 fiber cores efficiently, making it suitable for both residential and commercial FTTH deployments. The box is compatible with wall-mounted, pole-mounted, and multi-layer installations, providing flexibility for various network setups .

Key Features

- Capacity: Supports up to 12 fiber cores with 12 ports for efficient distribution .
- Connector Compatibility: SC connectors are standard, with the option to replace with LC connectors (sold separately), .
- Durability: Built for indoor and outdoor use, resistant to harsh environmental conditions .
- Splicing and Storage: Includes a large internal splice tray for convenient fiber reeling and splicing .
- Applications: Ideal for FTTH networks, optical cable distribution frames, and optical communication equipment .

Suppliers in Qatar

Several suppliers provide 12-core fiber distribution boxes in Qatar:
