

Seismic bracing for cable trays available in stock

Article Overview

Seismic bracing kits for cable trays are available from multiple suppliers, including Legrand, Launch 3 Telecom, Easyflex, and Alibaba, offering ready-to-install solutions for seismic protection.

Available Products and Suppliers

Legrand Seismic Bracing Kit provides all necessary components for long cable tray runs, including 3/8" threaded rods for trapeze installations, sway bracing attachments, and predrilled tabs for concrete deck mounting. The system is designed for Cablofil Wiremesh Cable Trays and allows spacing every 30 feet, with technical support available for installation guidance .

Launch 3 Telecom offers a wide selection of earthquake bracing solutions, including seismic-rated brackets, strut bracing, cable tray supports, diagonal bracing kits, and anchoring hardware. These products are suitable for both new installations and retrofit upgrades in data centers, hospitals, government buildings, and commercial facilities .

Easyflex EFSC Series Seismic Cable Restraint Kits are engineered for suspended non-structural components, including cable trays. They provide all-directional restraint, pre-engineered galvanized aircraft cable assemblies, and flexible bracket orientation. Kits are available with two or four cable assemblies for single-point or four-point suspended systems, optimized for 45° angled bracing .
