

Simple cable tray support price

Article Overview

Cable tray supports typically range from \$5 to \$50 per piece, depending on type, material, and load capacity.

Price Overview

- **Wall Supports:** Designed to mount cable trays directly to walls, these supports generally cost \$5–\$20 each for standard galvanized iron or zinc-plated steel models, depending on size and thickness .
- **Hanging Supports / Ceiling Supports:** Used to suspend trays from ceilings or beams, prices range from \$10–\$40 per support, with adjustable or heavy-duty versions at the higher end .
- **Floor Supports / Cantilever Supports:** Floor-mounted supports or cantilever brackets for heavy loads typically cost \$15–\$50 each, especially for industrial-grade galvanized iron or reinforced steel .
- **Right-Angle Supports:** These are used to secure trays at corners or perpendicular to walls, usually priced \$8–\$25 per piece depending on material and size .

Factors Affecting Price

- **Material:** Galvanized iron (GI) and zinc-plated steel are common; stainless steel or heavy-duty options cost more due to corrosion resistance and strength .
- **Gauge / Thickness:** Supports with thicker gauges (14 SWG or 16 SWG) can handle heavier loads and are priced higher than lighter 18 SWG options .
- **Load Capacity:** Supports designed for high-load trays (up to 280 lbs per foot) are more expensive than standard supports .
