

Somali fusion spliced optical cable brand

Article Overview

SOON (Somali Optical Network) and Somcable are the leading providers of fiber optic solutions in Somalia, offering fusion spliced optical cable services and infrastructure.

Key Providers

1. Somali Optical Network (SOON) SOON is a privately owned Somali company licensed to provide telecommunications infrastructure, including fiber optic and wireless solutions for high-speed digital communication, metropolitan networks, and backbone services . They offer:

- Fiber-optic network installation and maintenance
 - Internet and data services
 - Voice over IP (VoIP) solutions
 - Network security and monitoring
 - Cloud services and hosting SOON has deployed Fiber to the Home (FTTH) and provides international interconnectivity for Somali operators and carriers . Their services include professional fusion splicing of optical cables, ensuring high-quality connectivity and minimal signal loss.
2. Somcable Somcable focuses on connecting Somaliland and East Africa to global networks, providing fiber optic infrastructure and communication services . They emphasize customer-oriented solutions and innovative deployment of fiber networks, which likely includes fusion splicing and high-quality cable installation for both commercial and residential applications.
