

Southern European fiber optic patch cord

Overview

Southern Europe remains structurally import-dependent for optical fiber patch cables, with an estimated 70–80% of supply sourced from East Asian and North American fiber preform manufacturers, while local assembly operations in Italy and Spain add 10–20% value through custom. Southern Europe remains structurally import-dependent for optical fiber patch cables, with an estimated 70–80% of supply sourced from East Asian and North American fiber preform manufacturers, while local assembly operations in Italy and Spain add 10–20% value through custom. We provide a wide range of single-mode and multi-mode fiber optic patchcords. We offer any configuration of the cable, such as connector type, length, fiber type and customized labels. Typical uses include connecting switches, routers, servers. This Breakout Optic Patch Cord is constructed of two simplex units, held together with an overall PVC/LSZH jacket. DOUBLE ARMOURED FIBER PATCH CO. The Norden Double Armoured Fiber Patch Cord is designed for applications that. Fibre optic patchcords are single-, dual-, or multifibre data cables that are factory-assembled with the commonly used fibre optic connectors – LC, SC, E-2000, MTP, SN, CS, MDC, etc. – and are used to connect IT hardware (e. switches, servers) equipped with fibre optic interfaces either directly.
