

Specifications of UAE electrical cable trays

Overview

In the UAE and KSA, a typical steel ladder or perforated cable tray comes in standard lengths of 2,440 mm and 3,000 mm. Widths offer far more variety, usually ranging from a narrow 50 mm up to 1,200 mm. Common side depth (or height) options are 50 mm, 75 mm, 100 mm, 150 mm . Choosing the correct cable tray sizes is fundamental to the safety, efficiency, and future scalability of any electrical installation in the demanding environments across the UAE and GCC. Our cable tray systems are engineered for modern infrastructure, ensuring safe, organized, and efficient cable routing across commercial, industrial, and utility. Metar is a leading cable tray manufacturer in Dubai, UAE, supplying high-performance steel cable tray systems for commercial, industrial, and infrastructure projects. It's more than just fitting cables; it's about guaranteeing safety, meeting local compliance, and building in capacity for future growth.
