

Sri Lanka Fiber Optic Connector Processing Plant

Article Overview

Sri Lanka hosts advanced fiber optic connector processing and assembly facilities, with companies like T&G Lanka, T&G Genex, and C & D International leading the sector.

Key Companies and Facilities

T&G Lanka operates modern production facilities for fiber optic patch cables and connector assemblies, offering turnkey solutions from component procurement to final functional testing. Their patch cables undergo individual inspection using microscopes and measuring instruments to ensure minimal signal degradation, supporting applications in telecommunications, space, and offshore industries (T&G Lanka) . T&G Genex provides high-performance data networking and interconnectivity solutions, with manufacturing capabilities across five locations in Sri Lanka. They offer OEM/ODM services, enabling production of fiber optic components tailored to customer specifications, and focus on delivering industry-leading technology adapted for the South Asian region (T&G Genex) . C & D International (Pvt) Limited is the first ISO-certified Sri Lankan manufacturer of PON devices. Their facilities include fiber laser cutting and CNC machinery, ensuring products meet Sri Lanka Telecom FTTH PON standards. They supply optical fiber closures, pigtails, patch cords, patch panels, and fiber termination cabinets, serving both local and global markets (C & D International) .
