

Storage Fiber Optic Switch Brand 6

Overview

The IBM Storage Networking SAN24B-6 switch offers low cost of entry, high performance, power efficiency, and TCO-friendly flexibility in licensing and capacity, with a flash-ready solution for the always-on business. The Brocade G610 features up to 24 Fibre Channel ports, delivering industry-leading Gen 6 Fibre Channel technology in a flexible, simple, and easy-to-use solution. Designed for maximum flexibility, this entry-level switch offers pay- as-you-grow capability to easily and cost-effectively scale from. Provides high scalability in an ultra-dense, 1U, 64-port switch to support high-density server virtualization, cloud architectures, and flash-based storage environments. Increases performance for demanding workloads across 32G links and shatters application performance barriers with up to 100. HPE Storage Networking offers a portfolio of high-performance, multiprotocol switches that have been rigorously tested and qualified for diverse SAN configurations, including Fibre Channel, iSCSI, FCoE, and NVMe over Fabrics. We validate compatibility and interoperability across a variety of. H3C UniServer R6900 G6 server, running a full load of 777 high-load virtual machines, achieved a performance score of 13,880 points, setting a new record. H3C's sub-brand Aolynk, designed specifically for SMB (small and medium-sized business) in global markets.
