

Tanzanian Copper Busbar Maintenance Manufacturer

Article Overview

Key copper busbar manufacturers in Tanzania include J.S. Electromec and Karstun Industries, offering customized busbar solutions and processing services.

Local Manufacturers

J.S. Electromec is a Tanzanian-based supplier located in Afrikana, Mbezi Industrial Area, Dar Es Salaam. They provide flat and perforated copper busbars for low-voltage switchgears and power distribution systems, with widths ranging from 15mm to 100mm and thicknesses of 5mm and 10mm. Their services include customized busbar components, CNC processing for shearing, punching, bending, embossing, and cable connector fabrication, making them suitable for maintenance and tailored industrial applications. Karstun Industries Ltd. manufactures copper busbars, copper tubes, and precision copper components for power distribution, electric vehicles, energy storage, and industrial applications. They focus on high-quality fabrication suitable for both standard and specialized engineering requirements.
