

The most expensive fiber optic cable in China

Overview

According to industry sources, the price of G. A2 specialty optical fiber — used in specific high-performance scenarios — has surged from 32 RMB to 240 RMB per core-kilometer over the past year, an increase of up to 650 percent. Fiber Count: It's not a linear increase. A 48-core cable isn't exactly double the price of a 24-core cable, because the manufacturing process (extrusion) costs remain similar. The “sweet spot” for price-per-fiber is often in. This guide ranks China's top 10 fiber optic cable manufacturers for 2025, based on market share, production capacity, innovation, and global reach. The list prioritizes companies with strong export performance (to 100+ countries) and compliance with international standards like ITU-T G. In some cases, suppliers only guarantee quotations for the same day, and in extreme situations even half-day quotations are appearing in the market. For many professionals who have worked in the optical. As we move into 2026, the landscape for Top 10 Fiber Optic Cable Manufacturers in China has been redefined by the explosive demand for AI-driven infrastructure and the rapid implementation of 6G test networks. Unlike traditional centralized tenders, this project: The procurement focuses.
