

Two routers for whole-house fiber optic internet

Overview

Yes, you can connect two routers to one fiber modem, but understanding the 'how' and 'why' is crucial for optimal network performance. A fiber-optic connection is the best choice for fast home internet as it has a number of advantages compared to traditional copper cables, such as faster speeds and less interference. Many major ISPs, such as Verizon and Xfinity, offer fiber connections directly to your door, known as FttP or Fiber. In this guide, I'll rank the best routers for fiber internet based on their performance, features, ease of use, and affordability. Prices correct as of July 10th, 2026. Our top overall pick is the Netgear Nighthawk RS700S, a Wi-Fi 7 router built for multi-gig fiber plans that handles up to 200 devices across 3,500 square feet. This guide clarifies the possibilities, practical methods, and potential pitfalls, ensuring you maximize your home or small office network.
