

UAE Cable Tray Processing Price 200

Article Overview

The price of a 200 X 100 X 2MM GI cable tray in the UAE typically ranges around AED 150-250 per meter, depending on material, coating, and supplier.

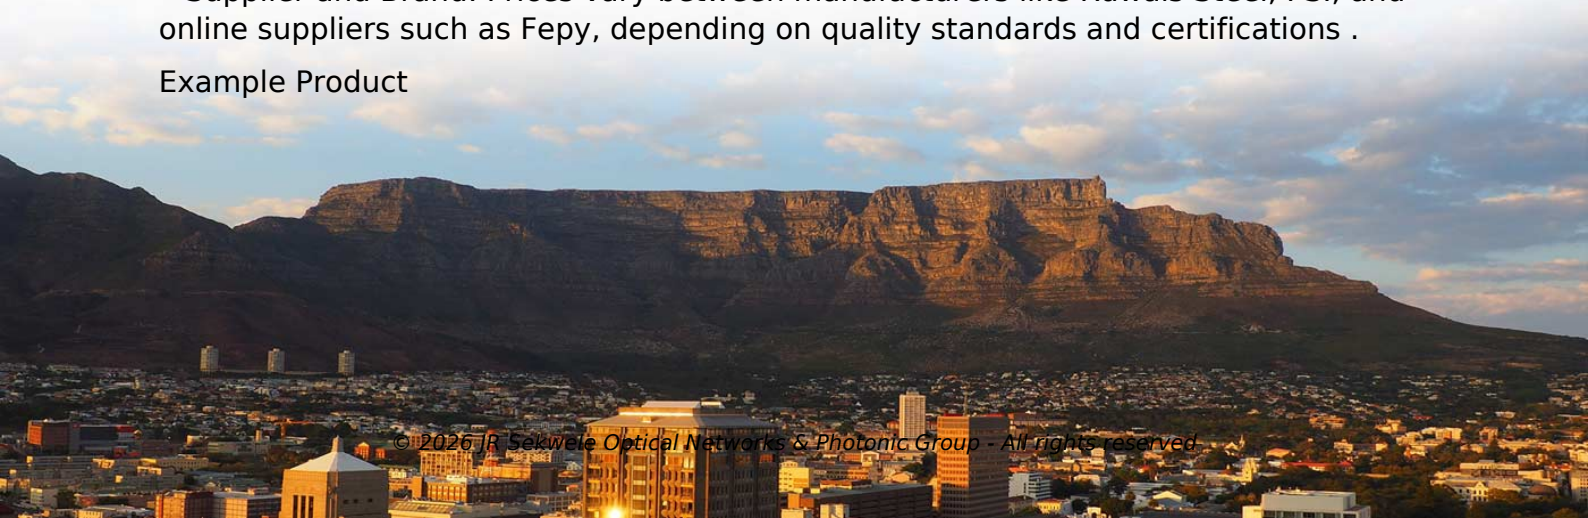

Price Overview

The cost of cable trays in the UAE varies based on material type, tray dimensions, coating finish, and load capacity. Galvanized iron (GI) trays, like the 200 X 100 X 2MM size, are widely used due to their corrosion resistance, durability, and ease of installation. Stainless steel or hot-dip galvanized trays generally cost more because of superior industrial performance and longevity .

Factors Affecting Price

- Material: GI is cost-effective, while stainless steel or HDG trays are more expensive .
- Dimensions and Thickness: Larger or thicker trays designed for industrial loads increase manufacturing costs .
- Coating and Finish: Powder-coated or hot-dip galvanized finishes add to the price but improve corrosion resistance .
- Supplier and Brand: Prices vary between manufacturers like Ruwais Steel, PSI, and online suppliers such as Fepy, depending on quality standards and certifications .
