

UPS power supply system 48V output

Overview

It can charge any 48 volt SLA, gel cell, VRLA, or AGM lead acid battery and instantly switch over to battery power upon power failure with zero crossover time. The 48V buffer modules from FEAS are all maintenance-free, as no battery is installed. We appreciate that DC UPS systems always require different specifications, so if you don't find what you need, please contact us for personalised assistance. Can't find what.
