

UPS rack solution

Overview

Need help finding the right UPS product?

Compare our full range of rack, tower and modular UPS' by output phases and kVA rating. If you're not sure on the right UPS and battery combination, our UPS sizing tool can help match you to the right products. Professional rack-mount UPS systems and custom power solutions engineered for data centers, server rooms, and mission-critical applications. Trusted by enterprises worldwide. Available in line-interactive and online (double-conversion) topologies, lithium-ion (LiFePO4) and lead-acid (VRLA) battery compositions, and various capacities. Medium-sized companies in particular, such as law firms and system integrators, often need a reliable system which is available at short notice to provide an uninterruptible power supply. The Rackmount models can be mounted in standard 19" rack enclosures and can require anywhere from 1U to 12U (rack space).
