

# Unit Price for Cable Tray Installation in Australia

## Article Overview

Cable tray installation in Australia typically ranges from AUD 50 to AUD 150 per metre, depending on tray type, material, and installation complexity.

### Factors Affecting Installation Costs

- Type of Cable Tray:
  - Perforated trays are light-duty and generally cheaper, suitable for smaller cable loads and faster installation .
  - T3 trays are medium-duty, commonly used in commercial and industrial settings, offering higher load capacity and fire resistance .
  - T5 trays are heavy-duty, designed for maximum cable capacity and industrial applications, costing more due to material and structural requirements .
- Material:
  - Aluminium trays are lightweight, corrosion-resistant, and easier to install, often reducing labour costs .
  - Steel trays are stronger but heavier, which can increase installation time and cost .
  - Stainless steel trays are highly durable and corrosion-resistant, ideal for harsh environments, but are the most expensive option .
- Labour and Installation Complexity:
  - Labour costs vary depending on site accessibility, height, and routing complexity .
