

Vanuatu Optical Cable Rewinding Machine Manufacturer

Article Overview

Supertek and Rosendahl Nextrom are leading global manufacturers of high-precision optical cable rewinding machines suitable for deployment in Vanuatu.

Supertek WLT

Supertek specializes in automatic rewinding machines for delicate materials, including fiber optic cables. Their machines feature:

- Precise tension control using a patented electromagnetic dancer system for ultra-thin fibers and optical cables .
- Customizable winding patterns with fully electronic traversing systems for cylindrical or conical spools .
- Modular design allowing integration with upstream and downstream equipment, such as annealing, dyeing, or cutting systems .
- High-resolution measurement and control, ensuring reproducible process parameters for speed, tension, and position .
- Applications include spooling, rewinding, unwinding, and precise layer winding for optical fibers, fine wires, and flat wires . Supertek machines are suitable for telecom, medical, and industrial fiber optic applications, and they can be shipped internationally, making them a viable option for Vanuatu.
