

Vivax Optical Cable Detection Instructions

Overview

This user handbook covers safety, battery information, operation, and locating techniques for the vScan cable and pipe locator. Learn about passive and active locating methods, depth measurements, and using the transmitter and receiver. Other chargers (even if they have the same connector, polarity, voltage & current rating) will not have the same control circuitry. They may cause damage to the product, overheating, and time, charge rechargeable batteries for six hours. If at any.

- Vivax-Metrotech vScan products using Lithium-ion batteries are classified as "not • The equipment should not come in contact with corrosive or hazardous chemicals, restricted", they can be shipped normally by road/rail/sea & air (passenger & freight gases or dust. Vivax-Metrotech is a leading manufacturer of innovative equipment used.
