

Wall-mounted optical cable distribution frame

Overview

Outdoor wall type fibre optic distribution frame is mainly used for connecting the outdoor optical cables, optical patch cords and optical pigtails. OTRANS can provide you with fiber distribution frame, optical junction box, cable distribution box, wall mounted cable distribution box, cable connection box, optical terminal box, optical fiber distribution box, rack splitter box, wall mounted splitter box, optical fiber information box, DINRAIL. CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management. The terminating box includes the metallic casing, adapter plate, splice tray, and other necessary materials for the. Streamline your fiber connectivity with our premium Fiber Optic Patch Panels and ODF systems. Designed for reliability and ease of use, our rack-mount and wall-mount solutions provide the perfect environment for splicing, terminating, and managing your critical fiber optic connections.
