

Waterproof protective cover for circuit breaker in distribution box

Article Overview

Waterproof protective covers for circuit breakers are available in IP65 to IP67 ratings, offering dustproof, waterproof, and impact-resistant protection for indoor and outdoor installations.

Key Features

IP Rating and Protection:

- IP65 covers protect against water jets and dust ingress, suitable for most outdoor and industrial environments .
 - IP67 covers provide higher protection, safeguarding against temporary immersion in water and complete dust ingress, ideal for harsh outdoor conditions .
- Material and Durability:

- Covers are typically made from polycarbonate or ABS plastic, offering impact resistance, UV stability, and long-term durability .
 - Transparent lids allow for easy inspection and monitoring of circuit breakers without removing the cover .
- Compatibility and Sizes:

- Available for 2 to 24-position circuit breaker boxes, including standard 86-type panels .

- Some models include DIN rail mounting and multiple mounting holes for flexible installation .
- Sealing and Installation:

- Many covers feature double-sealed silicone gaskets to prevent water intrusion .
