

Waterproof rating 5 distribution box

Article Overview

A 5-module waterproof distribution box with IP65 rating provides reliable protection against dust and water jets, suitable for outdoor and industrial electrical installations.

Key Features

- **Protection Rating:** IP65 ensures the enclosure is dust-tight and protected against water jets from any direction, making it suitable for outdoor use in rain or wet environments ().
- **Material:** Typically made from UV-stabilized polycarbonate (PC) or flame-retardant plastics, offering high mechanical strength, impact resistance (IK08), and durability under sunlight ().
- **Modules:** 5-module configuration accommodates DIN rail-mounted circuit breakers up to 125A, including single-pole, double-pole, or triple-pole breakers ().
- **Internal Components:** Includes a DIN rail for mounting breakers or terminal blocks, with some models offering pre-installed neutral and earth terminals for easier installation ().
- **Sealing:** Equipped with polyurethane or silicone gaskets to maintain waterproofing, even after repeated openings ().
- **Temperature Range:** Operates reliably in temperatures from -25°C to +55°C, suitable for various climates ().
- **Design:** Transparent cover allows visual inspection of connections; snap-lock or screw-lock designs facilitate easy access while maintaining protection ().
