

What fiber optic channels are available in Ecuador

Overview

Fibre optic (FTTH/FTTB): Fibre-to-the-home and fibre-to-the-building services are offered in Quito, Guayaquil, Cuenca, and other sizeable cities through operators including Netlife, Xtrim, Claro, and CNT. Key Insight: Ecuador has made substantial progress in expanding its fiber optic network, reaching 85% coverage in major urban and rural areas. It has a presence across most provinces and offers bundled packages that pair fixed internet with telephone service. Current plans and pricing are listed at www.cnt.com.ec. It is not uncommon to find download and upload speeds of 200 Mbps in Airbnb rentals in the north-central. UFINET, the largest wholesale operator of fiber optic infrastructure in Latin America, has just signed a corporate agreement to incorporate NEDETEL's operation to its business in Ecuador, thus strengthening the wholesale offer in the country. NEDETEL, an operator with more than 15 years of experience, is implementing an FTTH (Fiber to the Home) project in Ecuador could be a significant endeavor with the potential to greatly improve internet connectivity and access to high-speed broadband services for residents and businesses across the country.
